Preschool Programs

Mommy and Me, 3-4 Year Old Class, 4-5 Year Old Class, Open Toddler

In the Preschool Program children will learn **balance, strength, coordination, discipline**, and much more while having fun on our gymnastics obstacle courses, trampolines, mini-trampolines, and spring floor. Through this trampoline - gymnastics class the students will build a strong foundation to set them up for harder classes and even school. Obstacle courses will vary from hanging and developing strength on bars and rings, jumping and crawling- forwards and backwards, climbing, sliding, rolling and somersaulting, with fun colors, toys and blocks. Classes are jam-packed with fun and constant activities. No time will be wasted sitting and singing- your child will be moving, jumping, smiling, and enjoying every minute. We teach the children to be independent and follow the structure of the class, i.e.- walking in line, taking turns, and following directions.
